Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 8-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pelz (3,549,300) in view of Condon (5,690,556) and Lucetti (5,704,851). Pelz discloses a golf club comprising: index mark 28, a plurality of index marks 42 aligning with index mark 28 (Figures 2-6, and Col. 3, lines 14-66), a grip 16, and toe portion 22 is remote from the grip. Pelz '300 does not show a centerline marker marking at the center of gravity of the putter head. Condon '556 shows a plurality of ball centering indicia 16 on the top surface 12 to allow the golfer to align a golf ball and the club head with a target (Col. 3, lines 37-44), and it appears that one of the centering indicia 16 is marked at the center of gravity of the club head. Lucetti teaches a groove 22 on the top head immediately above the center of gravity in order to facilitate alignment. (Col. 2, lines 47-50). Thus, it would have been obvious in view of Condo '556 and Lucetti '851 to one having ordinary skill to modify the index mark 28 of Pelz '300 with centering indicia 16 of Condo '556 and/or groove 22 of Lucetti in order to facilitate alignment of the golf ball with the club head at its center of gravity.

Response to Arguments

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
